Faison Construction, Inc. was incorporated as a Limited Liability Company in 2000. In 2008, Faison Construction elected to be treated as an S Corporation. Faison Construction provides services in the concrete flatwork market which includes curbs, walkways, driveways, inlets and slabs, commercial buildings, road and bridge work. Along with a small amount of private work, projects include prevailing wage jobs primarily on contracts issued by State, Local and Federal Agencies.

Faison Construction has worked with many of the most well-known general contractors in the Portland area including Walsh Construction, Skanska, Hoffman Construction Company, Wildish Standard Paving, Kerr Contractors, Stacy & Witbeck, Hamilton Construction, Howard S. Wright and Fortis Construction.

Faison Construction has historically worked as a sub to the Prime Contractors listed above and is moving into the Prime Contractor role, as expansion in sales volume continue to grow.
